## Kelleher-LeGrand Nuptials Saturday At St. Elizabeth's

Miss Doris LeGrand became Mrs. James F. Kelleher in an 11 o'clock ceremony taking place Saturday morning at St. Elizabeth Catholic Church in Mitchell. The Rev. Fr. Joe LeGrand of New Athens, Ill., a great-uncle of the bride, officiated.

The former Miss LeGrand is a daughter of Mr. and Mrs. Paul LeGrand, 2006 Cottage avenue. Mr. Kelleher's parents are Mr. and Mrs. James F. Kelleher, 2035 Park lane, Jennings, Mo.

Arrangements of white gladiolus, pom poms and greenery decorated the church for the service which was followed by breakfast in the school cafeteria and a reception later in the day at Mosley Auditorium, 4610 N. Lindbergh blvd., St. Louis County.

The long sleeved bridal gown made of delustrated satin and French imported Alencon lace, had a sweetheart neckline adorned with small lace motifs outlined with seed pearls.

The fitted lace bodice was attached to a controlled dome front skirt and lace motifs outlined with pearls were picked up on the front and back of the skirt and continued on the chapel train. A double crown of lace and seed pearls secured a bouffant impoized illusion veil, and the bride held a cascade of stephanotis and camellia foliage. She was given in marriage by her father.

The maid of honor, Miss Helen LeGrand, a sister of the bride, and bridesmaid, Miss Gail Kehoe, and Mrs. Gail Giffney.

The bridegroom's sister, were identically dressed in short red brocade gowns with long sleeves, fitted bodices, scoop necklines and wide controlled envelope skirts. All three of the attendants carried deep red croton leaves and light pink pom poms.

Thomas Coll was best man, and the corps of groomsmen and ushers was composed of Kenneth Lochr, William Manna, all of St. Louis County, and Bob LeGrand, the bride's brother.

Mrs. LeGrand, the bride's mother, was in a royal blue knit suit, a white feather hat and a corsage of white pom poms.

The bridegroom's mother selected a beige and brown costume suit complemented with bronze pom poms in a shoulder corsage.

Music throughout the service was furnished by Miss Janet Boyle, organist.

The newlyweds left after the reception for a honeymoon in Las Vegas. They will be at home after Nov. 3 at 10742 Glen Gary, Glasgow Village, St. Louis County.

The former Miss LeGrand was graduated from St. Theresa Academy in East St. Louis and has been employed by the Maryland Casualty Co. Mr. Kelleher, accounts supervisor for the Southern Agency Co., is a graduate of St. Louis University high school.

There is as much greatness of mind in acknowledging a good turn, as in doing it. —Seneca

### Braves Blank MHS Freshmen, 33-0

Scoring at least one in each quarter, Coolidge junior high school pinned a 33-0 football loss on Madison's freshman grid team in Madison Thursday as halfback Jackie Turner ran for the Braves' first three touchdowns.

Turner went 37, 17 and seven yards for TDs in the first, second and third quarters. Ken Wieser skirted left end for 17 yards and the fourth Coolidge score. Greg Wozniak, Tom Barnett and Terry Cassy each picked up a point after touchdown on plunges.

Madison's most serious scoring threat came on a long pass completion which carried the Braves to the 10-yard line. The Braves to the Coolidge 30 in the third period.

The win boosted the Braves to 5-0 for the season, while Madison is 6-5. Madison has been shut out in five games. Coolidge plays at Cahokia Thursday afternoon, while Madison travels to Roxana tonight for a 7 o'clock contest.

### Madison (Minus Cooper) Shocks Shells 13 To 6 On Long Scoring Plays By Andrews And Russell

Minus its No. 1 ball carrier and scorer, fired-up Madison surprised Roxana Friday night 13-6 in what Trojan Coach Glen Pickering called "our best game of the season, teamwise."

Parlaying the hard running of fullback Terry Andrews on a stout defense into a lopsided statistical advantage, the Trojans came from one touchdown back to hand the Shells their first defeat in Midwestern conference play this fall and edge to within half a game of second place in the MWC standings.

A scoreless tie was broken in the second period when Shell halfback Reggie Sparks cracked off tackle from the Madison 43, broke back up the middle and dashed for his team's only score. The try for extra point failed, and from there on it was all Madison.

Andrews goes 60 yards. The teams exchanged punts after the kickoff and Andrews found a big hole inside right tackle, broke through in the first half ended.

Quarterback Gary Skinner found end George Russell open on a down-and-out pass pattern on third down in the third period as Madison struck through the air for its final score.

The scoring play covered 69 yards, with Russell getting a key block from windbag Don Broyles after receiving the pass. The try for extra point failed.

They could not score again, but the Trojans made sure Roxana did not come back by pushing the Shell offense in the wrong direction throughout the final period.

Minus Yardage. Shell quarterback Jim Frazier was knocked off his feet repeatedly as he faded to pass and Roxana was charged with a minus 37 yards rushing in the second half.

Trojan linemen broke through to smother Frazier for big losses on three straight plays late in the fourth period as Roxana lined up in the short punt passing formation. Frazier completed only two of the 12 passes he did get off.

Roxana very nearly surrounding another score in the closing seconds as Madison due to the visitors' 12-yard line before fumbling, and then came back again after the Shells could move with the recovered fumble, with Skinner rolling out to the one-foot line on the final play of the game.

Andrews, beaten out of a starting assignment at fullback last week by Eugene Brown, marked his return with 115 yards.

Forrester's kick was the decider in a 2-1 Gitchiff win.

## Eisenhour's Passes Break Game Open In 2nd Quarter

Unable to generate anything resembling an offense and limited to just 18 yards rushing, Granite City's football Warriors found themselves on the short end of a shutout score for the fourth straight week Friday night at Parsons Field, where the East St. Louis Flyers turned a relatively close Southwestern Conference game into a rout in the last period and scored a 34-0 victory.

"We just ran out of gas," said Warriors Coach Al Lewis after the Flyers had pushed across three fourth-period touchdowns to pad a lead which had been only 7-0 at halftime and 14-0 after three quarters of play.

Sparked By Eisenhour. When Granite City's tank was going dry, the Warriors' woes were helped along by quarterback Eisenhour, who entered the Flyer lineup with three minutes left before halftime and mustered the GC defense into a rout in the last period and scored a 34-0 victory.

Taking over for starter Tom Jentsch, Eisenhour made connections with halfback Clarence Mokszycki in his first two aerial attempts, the second good for 16 yards and a Flyer score with 2:32 left in the first half. Ron Wells kicked the extra point to make it 14-0 at halftime.

able to stick with the Flyers most of the first half although they could gain only 28 yards on the ground, the Warriors in the last two periods and lost 10 yards in the 13 plays they managed to run from scrimmage.

The Flyers dominated the second half of the game to such an extent that the Redmen managed just one first down, the first on North Wilford's 15-yard run the first time Granite City got its hands on the ball after the halftime break.

**50 Yards For Wilford.** Wilford managed to crack the Flyer line for 50 yards, but losses by teammates offset his running, which was Granite City's worst in the game.

East St. Louis made it 14-0 in the third period when halfback Jentsch took a 16-yard plunge from a double-wing formation and skirted his own back's own 31. Wells kicked a third good downfield blocking. Wells again converted from the line.

The Flyers' third scoring drive began late in the third period on a 16-yard pass to Jentsch. Mokszycki and fullback Bob Kiser grinding out most of the yardage, the Flyers moved to 22-0 in 13 plays, from where Mokszycki carried over with just 40 seconds of the final period gone.

Wells' kick was blocked by Terry Wagner and the Flyers led 20-0.

Five minutes later, East St. Louis had its fourth touchdown, with Eisenhour sneaking in from the one after setting up the score on a 40-yard pass over the line to Jentsch.

Wells converted again and the score soared to 27-0.

Lierman's pass intercepted by Granite City 46 on the next series and returned to the 20-yard line. Wells converted again and the score soared to 27-0.

Can GC Score? Talk on the Granite City side of the field after the game was not as to whether the Warriors can salvage a victory in one of their two remaining conference games, but rather if they can cross the goal in either contest.

Southwestern opponents have blanked the Warriors in four points on the scoreboard.

Next week, the Warriors are at home to Edwardsville, scheduled Friday night by Alton 20-15. Alton has beaten GC by a 33-0 score in two weeks the GCIS opponent is Belleville, 6-0 after a 20-0 win over Belleville Cathedral Friday.

## General Steel Earnings Up During Third Quarter

General Steel Industries, Inc., had consolidated net sales of \$24,247,700 in the three months ended Sept. 30, with earnings for the period of \$850,863, or 91 cents per share. Charles P. Whitehead, president, reported Thursday during a board of directors meeting at Edgemoor, Pa.

The board declared a quarterly dividend of 45 cents per share on the common stock. The dividend is payable Dec. 31 to shareholders of record at the close of business Dec. 21.

Both the net sales and earnings showed increases over the third quarter in 1961. That year, the volume was \$20,883,833 and profits of \$825,80 on 923,375 common shares of stock.

The third quarter report does not include income from Ludlow-Saylor Wire Cloth Co., acquired on Sept. 28, and the per share earnings exclude 60,000 shares in exchange for Ludlow-Saylor's common stock.

A nine-month 1962-61 comparison follows, with the 1962 figure listed first:

It increases to \$50,747 the amount forwarded from Springfield to county authorities in Edwardsville on 1962 sales. Average for each of the first seven months is \$12,963.

Since the Madison county tax went into effect Oct. 1, 1959, the county has derived \$414,990 — \$29,538 that year, \$146,613 in 1960, \$148,071 in 1961 and the \$90,747 so far this year.

## State Capitol NEWS

Gov. Otto Kerners has announced that he is considering the establishment of an office of the Illinois Board of Economic Development in Washington, D.C., to help Illinois manufacturers obtain defense contracts.

The governor pointed out that New York, California and Michigan already have Washington offices and that Michigan recently established an office in Detroit for the same purpose.

Gov. Kerners indicated that one reason why Illinois has been losing \$10 billion a year in defense contracts has been a lack of aggressive action in telling the defense officials. The proposed Washington office would be one technique for improving the situation, the governor said.

The governor listed the assets of Illinois in its campaign to get a larger share of the defense dollar. He mentioned specifically the state's universities and colleges and their research facilities and pointed out that Illinois, fourth in population, ranks second in the nation in the number of its industrial research laboratories.

Directions for the control of Dutch elm disease are reviewed in a folder published by the Illinois Natural History Survey, a scientific research division of the Illinois Department of Registration and Education.

Single copies of the folder may be obtained without charge upon request to the Illinois Natural History Survey, Section of Applied Botany and Plant Pathology, 383 Natural Resources Building, Urbana.

William T. Lodge, director of the Illinois Department of Conservation, urges landowners or tenants who intend to hunt deer

on the property where they reside to apply for their free deer hunting permit as soon as possible. The deadline is Nov. 15. No free permits will be issued after that date.

Corn is well over 90% mature with the remainder being in the dent stage, according to a report from the Illinois Cooperative Crop Reporting Service.

The percentage of crop mature in Illinois is about even with last year at this time, except the southwest part of the state where more than one-fourth is still in the dent stage.

Soybeans are about 60% harvested, slightly behind the 1961 and the five-year 1957-61 average for this time of year.

Nine Southern Illinois counties will share in a check for \$14,922 from the U. S. Forest Service. Gov. Kerners has announced.

The money represents 25% of the income from timber sales and special permit fees for the Shawnee National Forest during the fiscal year ended June 30. The annual dividend is to be shared equally for rural roads and schools and is in lieu of tax money which would be received by the counties if the forest land were privately owned.

Counties included in the Shawnee National Forest showing receipts follow (forest acreage is in parentheses):

Alexander, \$1745 (24,680); Gallatin, \$645 (9,129); Hardin, \$1,333 (17,442); Jackson, \$2,104 (24,755); Johnson, \$392 (8,771); Massac, \$214 (3,034); Pope, \$343 (7,882); Saline, \$763 (10,192); Union, \$2185 (30,960).

Autumn garden and vegetation tips from iris groves have been issued by the Division of Plant Industry.

Now is the time to protect against iris borers by cleaning out all leaves and other debris in the flower beds.

William T. Larkin, superintendent of plant industry, Illinois Department of Agriculture, said adult moths, the mature state of the borer, now are laying eggs on the old iris leaves where they will remain until hatching time next spring. He said the clean flower beds will tend to reduce the borer infestation for next year, and spraying should be done in the spring after new growth is 4 to 6 inches high.

## GC Garage Permits Almost Equal Others

With Granite City apparently preparing for winter, garage and carport construction permits were almost equal to those for other projects last week. Permits for construction totaling \$6030 were issued.

Earl Bloomquist, city building inspector, said two permits were issued for home improvement and repair projects. Four garage or carport construction permits were issued.

Grace Hoffman obtained a permit to raze a dwelling at 2604 East 24th street. Cost is estimated at \$1000.

Ambrose Rokep received a permit for installation of concrete driveways at 1423-25 Madison avenue at a cost of \$380. A permit for an addition and garage at 2829 Roosevelt avenue was issued to Paul Harper. Estimated cost is \$2500.

Garage or carport permits went to Henry Erell Jr., 292 Myrtle avenue, \$500; James Leslie, 2705 Denver street, \$350; Joseph Palus, 1536 Joy avenue, \$800; and Paul St. Cyn, 2924 Wayne avenue, \$1200.

## City Sales Tax In Area Topping All Previous Years

Sales tax revenue for local municipalities continues to run ahead of all previous years.

The latest monthly report, for July, totals \$23,880, boosting the year's tally to \$163,273 so far.

In previous January-July periods, the half-cent-a-dollar levy netted \$139,753 in 1961, \$152,817 in 1960, \$142,984 in 1959, \$122,634 in 1958 and \$127,370 in 1957.

The current year's city sales tax rate is running \$12,000 ahead of the highest previous year, 1960, which ended with a record tabulation of \$284,367.

A total exceeding \$280,000 seems likely this year, since the half-year figure was \$141,392 and sales usually are higher in the second half.

The current \$163,273 listing includes \$134,263 for Granite City, \$24,607 for Madison and \$6400 for Venice. For the \$23,880 July tax liability, the breakdown

is: Granite City \$19,634, Madison \$3392 and Venice \$854.

The July Quad-City figure of \$23,880 compares with \$19,742 in July 1961; \$21,360 in July 1960; \$23,045 in July 1959; \$18,057 in July 1958; and \$18,345 in July 1957.

## Language Barrier To World Understanding

A Southern Illinois University professor believes there is an even greater barrier between the east and west than the famous Berlin wall. In fact, he says, this barrier separates people in every corner of our world.

Dr. Alfred G. Pelligrino, foreign language committee head at the university's Southern Illinois campus here, maintains this barrier is the language wall. "When people learn to speak each other's language we're on the road to understanding each other," the linguist says.

**No Longer An Extra**  
"Learning a foreign language is no longer the 'embroidery' on an education. It is now one of the most important responsibilities of young people. We can't afford to assume we are along being mono-lingual and hoping the other fellow learns English."

Pelligrino believes the long-range solution to bringing down the language wall is to start teaching children a foreign language in grade schools, continue the program through high school and then on to college administration.

The following items were reported from the Granite City Press-Record

**MONDAY, OCT. 25, 1937**

Three girls and one boy received all "perfect" grades for the first six weeks at Community high school, according to an announcement from the principal, Supt. Paul A. Grigsby. The girls are Thelma Mayes, Wanda Bacon and Virginia Meyer. Miss Mayes had six "A" grades and the other girls had five. The boy, Louis Kacaleff, had five "A" grades.

Arrangements for the annual Halloween parade and entertainment have been completed by the Associated Retailers and Tri-City Post 113, American Legion, it was announced today by G. B. Usery, secretary of the retailers' organization.

Mr. and Mrs. Clarence Walters, 2415 Delmar avenue, returned Friday from a week's vacation with relatives residing at Gretna and Newton, Ill.

The appointment of R. C. Barney of the Granite City Trust and Savings Bank as a member of the committee for legislation of the Illinois Bankers Association was announced last week by J. P. Schmidt of Waterloo, president of the organization.

Miss Julia Maher of Lincoln avenue, Venice, has been pledged by Delta Theta Gamma sorority in St. Louis.

Harold Stallings, son of Mr. and Mrs. John E. Stallings, 2737 Washington avenue, a senior at Illinois College, has been elected secretary-treasurer of the boys' dormitory. He is a member of Kappa Phi Sigma literary society.

The annual YMCA membership drive came to a close Thursday with a total of 927 new and renewed memberships aggregating \$7305. The goal was \$7300.

Herman F. Huxel, chairman of the drive said, "The goal was to raise \$195 to take care of the next few days. Workers who raised \$100 or more were A. W. Holscher, Arthur Roseman, G. W. Holscher, Dawson Pugh, Dr. Harry Epstein, Paul A. Grigsby, H. D. Karsdoff, Harry Johnson, F. W. Kottmeyer, Charles W. Kottmeyer, Harry Epstein, Miss Ethel Baker, Leonard Davis, Joe Koenig, Harry Harsh, Lawrence C. Cui, Wessel Brown, Roy Larsh, Herman Huxel and E. F. Varnum. This year's drive raised approximately \$1000 more than that of last year."

## Junior GAA Play Day Saturday At Coolidge

Approximately 320 ninth grade members of the Girls' Athletic Association participated in the junior high play day at Coolidge junior high school Saturday.

Themed "The Land of the Living Sun," the event featured dancing, programs and team games in orientation. Students from Frasier and Coolidge participated.

Rain forced the group indoors, and activities were limited to physical fitness events and indoor variations of popular sports. Granite City high school GAA officers and board members served as officials.

GAA advisors, Miss Anna Marie Harn of Coolidge and Mrs. Mary Lou McCarty of Frasier supervised the program. Play day chairmen were Mary Lanan, hospitality; Christine Lusk, decorations; Pat Parker, food; Karen Hübner, equipment; Anita Grogan, program; and John Strobel, entertainment.

Junior GAA president is Mary Hagler of Coolidge.

The group plans to repeat the play day in the spring, with Frasier as host school.

The fewer desks, the more peace.

Foreign languages should become a part of a child's education and could be integrated with other subjects such as history and geography, he says, rather than being used as a replacement for any subject.

**Enrollments Rising**  
Enrollments in foreign study are on the increase, says Pelligrino, who last year headed one of the 84 institutes held under provisions of the National Defense Act to improve the skill of foreign language teachers.

To meet the increased demand for languages, SIU's foreign language staff at the local campus has been increased to nine full-time members teaching in French, German, Russian and Spanish.

Pelligrino, who hopes some day to see foreign language study a universal part of education, studied at Wesleyan and Yale Universities.

Although important in itself, the transportation plan is only one of a number of needed programs that transcend traditional municipal, county and state boundaries and can be handled on an areawide basis. Progress being made toward a single bus system puts the Bi-State Agency on the road toward being able to provide many other services as well.

For years, the ten-member Missouri-Illinois agency was opposed at local and state levels by other governmental bodies who were fearful of competition in carrying out various improvement projects. Fortunately, most if not all of this feeling has vanished and the Bi-State Agency has been able to obtain unquestioned legal authority in fields where areawide jurisdiction is most suitable.

The key point is not who carries out a particular program, but that it is carried out. Since many undertakings are impossible for agencies limited by narrow geographical boundaries, it is an advantage to every resident of this region that there is a Bi-State Agency, and one in full-scale operation.

Now that the two-state agency is scheduled to handle the passenger system inside the Gateway Arch, and has a good chance to assume supervision of a unified bus transportation network, it seems likely that the high hopes held for the agency in its infancy will be realized.

From a similarly small start, the New York Port Authority and others have been able to make valuable contributions to metropolitan growth, progress and convenience.

Add To State Monetary Problems

Comments here by the president of the Illinois Retail Merchants Association cite the strong likelihood of state tax increases unless economy measures are taken. That, the association has been emphasizing this fall by the Illinois Legislative Sub-committee on Economy Measures, which presents interesting facts on present printing and budgetary policies.

It was previously noted that the subcommittee has pinpointed ways in which education and public aid expenditures could be revamped without harming the individuals and governmental agencies in

the state. The subcommittee has also pointed out that the state's budget is in a state of emergency.

**Bi-State Agency Now Well On Road To Providing Variety Of Areawide Services**

Proposed purchase of 15 transit firms by the Bi-State Development Agency means more than a coordinated bus transportation system for St. Louis and the surrounding Illinois and Missouri metropolitan areas.

Although important in itself, the transportation plan is only one of a number of needed programs that transcend traditional municipal, county and state boundaries and can be handled on an areawide basis. Progress being made toward a single bus system puts the Bi-State Agency on the road toward being able to provide many other services as well.

most need of help. Attention also has been called to such budget items as \$700,000 for thoroughbred horse awards and State Fair colt prizes.

Without eliminating necessary reports and pamphlets, it seems clear that much could be saved by giving state more guidance on production and distribution standards. Many reports could be multilithed and others could omit expensive bindings and illustrations. If fees were charged wherever practicable, circulation could be drastically curbed.

The subcommittee's views boil down to the logical assumption that the cost of publications should be kept in proportion to their value. Since many time reports needed only rarely are being issued on a regular basis, an analysis by a private management consulting firm might be helpful.

Legislators last year had only ten weeks to study a 462-page budget involving recommendations to spend \$3,500,000,000. It was up to them to explore the request of each state agency and introduce their own appropriation bills or amendments while simultaneously attending to legislative matters on other subjects.

The law obviously should be changed to require earlier budget submission, by Feb. 1 at the latest, and existing statutes should be followed so there will be explanatory information on the fund revenue available to the legislature. Various requests from either the governor or Illinois Budgetary Commission, lawmakers are seriously handicapped. Current procedures cannot help but cause much waste.

Unless waste is ended, the state no doubt will need to boost taxes. But why not balance the budget the logical and economical way?

## McKinley Bridge Traffic Five Years Ahead Of Expected Volume

The 7,472,868 vehicles that crossed McKinley Bridge in the 1961-62 fiscal year put it five years ahead of the traffic table projected at the time the city of Venice bought the bridge in 1958. Based on the present outlook, there seems little doubt that the financing program will be successful.

Despite the monetary setback from a one-month delay in the anticipated purchase date, the large traffic volume already has been reflected in bridge funds. Annual payments to the city, originally expected to reach the \$100,000 yearly limit by the sixth year, rose to that level in the fourth year.

Extensive use of the bridge bears out engineering reports which claim that the bridge is holding up well. The Missouri approach to four lanes, treads to tabulate all crossings, and the link with the Mark Twain interstate route in Missouri. The future link with the new riverfront road will be an added stimulus.

Negative factors cited at the time of the purchase included the long period in which tolls are to be collected, possibly 20 years but now certain to be less; the 29% rise in average toll, probably reduced by the current practice of accepting commuter tickets past the expiration date; the high purchase price, reduced by return payments for use of bridge railroad tracks; and lack of competitive bidding in the bond sale.

With yearly traffic totaling several hundred thousand more than the projections—which had appeared to be optimistic in comparison to past McKinley Bridge statistics—more funds are assured for city projects and for further refurbishing of the bridge itself.

At Venice, like Madison, may find itself possessing "a goose that lays golden eggs." But the mold has been broken by the trend toward federal free bridges; toll bridges no longer are attractive to bond buyers.

The go-getter is one who persuades you that his estimate of himself is correct.

**Price Addresses County Young Democrat Group**

Congressman Melvin Price addressed about 150 Madison County Young Democrats at a meeting Thursday in Lincoln, where special recognition was given Christ Costoff, Venice, for his assistance to the group.

Costoff was given a plaque by Daniel Churovich and Lester Cato, who was program chairman.

Price, in his talk, stressed the accomplishments of the 87th Congress, pointing out that President Kennedy had received approval of 73% of his administration proposals. "The best record of any president."

Other speakers were Paul Simon, candidate for state senator; Leland Kennedy, state representative; Barney Fraundorf, sheriff; Austin Lewis, probate judge; and Dale Hill, probate clerk.

Also present were Walter "Buck" Simmons, county chairman, and Robert Gibson, treasurer of the Young Democratic Clubs of America.

## THE PASTOR SPEAKS

REV. TRUMAN E. COLLINS  
Mt. Zion General Baptist Church

Is "What is to be, will be" a fact or a fancy?

Friends, tucked away in the 93rd Psalm is a short phrase that may have an answer to this question. It at least holds a fact the people of this complex age should consider.

The phrase to which I refer, and the fact the entire world needs to recognize, consists of only three words. . . "The Lord reigneth." Let us note why we feel this truth needs to be re-considered and recognized.

There is a possibility that I could be wrong at this point, but it seems to me that great multitudes in our nation today are holding their entire life upon the idea of chance.

Whether this was the concept of the author in the above quoted phrase we are not sure, but in the minds of many, life is only a chance. . . an experiment, a trial, a test, a game, to go well. The result of this philosophy is lots of good luck charms and a great deal of superstition.

Is this a sound and firm way to build a life? Others Look To Nature

Others leave the impression that nature sits in the driver's seat of our lives. They look back to evolution for their origin and to the stars for their future.

Yes, many today read the path to their destiny in the signs of the stars and the horoscope. Thus, they build their lives on nature. Is this a solid and a satisfactory way to build a life?

In the great scientific age when the race for space will, in the minds of many, determine their future and eternal destiny, and when the powers of the world stand face to face with the great unknown, is this a sound and a satisfactory way to build a life?

He has all power over nature (Matthew 8:27); over the kingdoms of men (Daniel 4:32-35); over sinners (Psalm 76:10); as well as saints (Revelation 15:3); and the Lord has control of the power and the ability of man to save us or to destroy us.

**Two Divorces Granted In Madison Court**

Divorces were granted Friday in Madison county circuit court to two Quad-Cities couples.

William G. Bennett of Granite City was given a divorce from Shirley M. Bennett on grounds of desertion. They were married in Mississippi in September, 1937 and separated in January, 1962.

Anna Mae Layton was granted a divorce from Noble Layton of Madison on grounds of cruelty. They were married in July 1928.

**Child Drinks Germ Killer; Another Hurt By Mower**

One child killed and lawnmower mowed resulted in emergency treatment for two four-year-olds Friday at St. Elizabeth Hospital.

Joyce Moss, 2012 Twelfth street, underwent a stomach lavage after drinking an unknown amount of germ killer; and Deborah Clout, Rural avenue, had her right leg lacerated by a lawnmower.

Both children were injured, but no serious injuries. No serious injuries. No serious injuries.

## Engineer Report Due At GC Council Meeting

While many of Granite City's aldermen are attending the Illinois Municipal League convention in Springfield, a meeting for committee reports is scheduled for 8 o'clock this evening.

No agenda has been prepared, and the mayor's office reported it was unlikely a quorum would be present.

Alderman Mrs. Gabrielle Reineke, who also attended the IML convention, said last week she would return for tonight's meeting and would present data that the city could save money by continuing the employment of Sheppard, Morgan & Schwaab, designers of the drainage-pollution abatement program, for the proposed sewage treatment plant.

"I'll do it even if a quorum is not present, but I believe the aldermen should be interested enough to return to hear the presentation," the alderwoman said.

THE LIBRARIAN  
she's custodian of recorded knowledge...

Don't you sometimes wish world affairs were as well organized as a library? Or that people could get along with each other as well as they do with books? If she did nothing else for the community, the librarian would justify her existence by providing a haven of peace and quiet. But she does more than that. She brings people and knowledge together. And it's not an easy job. She selects the books, periodicals, newspapers, pamphlets, documents, films, recordings, photographs, maps, and other types of recorded knowledge which make up the library's collection.

For children she arranges story hours, gives book talks, visits schools, directs vacation reading clubs. For teen-agers she plans programs and helps them with school reading assignments. For adults she performs a variety of services—advising them on what to read, answering reference questions, organizing discussions. She introduces them to a world of recreation, scholarship, literature and modern technological sciences. The librarian is the community's liaison with the world of recorded knowledge.

## Miss Linda Mae King And Gerald Jos. Ziolkowski Wed

The wedding of Miss Linda Mae King, a daughter of Mr. and Mrs. Robert King, 1924 Johnson road, and Gerald Joseph Ziolkowski, son of Mr. and Mrs. Joseph Ziolkowski, 2035 Thirteenth street, took place Saturday morning at St. Mary's Catholic Church in Madison.

Rev. Sylvester Miceli officiated at the 9:30 ceremony before the altar decorated with bouquets of Fuji chrysanthemums and gladioli. Arrangements of greenery were used about the sanctuary and white satin bows marked the family pews.

Wedding music was furnished by Mrs. Eleanor Turka, a cousin of the bridegroom, who accompanied at the organ by Mrs. Dorothy Bridick.

A gown of white bouquet taffeta was worn by the bride. It was fashioned with a rounded neckline and long tapered sleeves. An overlay of cream-broidered Alencon lace covered the bodice and lace motifs were appliqued on the skirt which swept into a court train. A veil of silk illusion was secured to a crown of pearls and the bridal bouquet was made up of lilies of the valley with a white orchid corsage in the center.

Miss Carol Ziolkowski, a sister of the bridegroom, maid of honor, was attired in a long gown of aquamarine brocade with a square cut neckline and three-quarter length sleeves. Unpressed pleats gave fullness to the back of the sheath skirt and a small hat and nose veil of silk illusion completed the costume. Her flowers were a cascade type bouquet of matching bouton mums.

Two bridesmaids, Miss Roberta Matejka and Miss Geraldine Straka, were in gold brocade gowns made in the same lines as that of the honor attendant. They too wore matching hats and veils and carried gold bouton mums.

For her daughter's wedding Mrs. King selected a sheath dress of pale blue chiffon and lace over taffeta with accessories in a darker shade of blue, while Mrs. Ziolkowski, the bridegroom's mother, wore an autumn green brocade sheath and darker green accessories. Both had corsages of butter mums limited to match the dresses.

Joseph Thomas was best man, Mr. Ziolkowski was groomsmen, the bride's brother, Raymond Sparks, Dan King, another brother of the bride, and Kenneth Selzer served as groomsmen and ushers.

The wedding breakfast was held at the Polish Hall, and in the evening friends of the couple attended a reception there.

After a honeymoon in the Missouri Ozarks, the newlyweds will live at 1133 McCabridge avenue, Madison.

## Miss Donna Sue Bolin Is Bride Of William Dorris

Miss Donna Sue Bolin, daughter of Mr. and Mrs. Earl Bolin, 2032 McCabridge avenue, and William P. Dorris, son of Mr. and Mrs. Wilbert Niepert, Route Two, Edwardsville, were united in marriage Saturday morning at eleven o'clock.

Father Sylvester Miceli officiated at the double ring ceremony at St. Mary's Catholic Church in Madison.

Gladioli and pom poms adorned the altar of the church as the bride's father gave her in marriage.

She wore a gown of white satin. The molded bodice was fashioned with a portrait neck line and a deep yoke of re-broidered Alencon lace featuring long tapered sleeves. The bouffant skirt, which billowed from a basque waistline, was designed with straight panel front embellished with a large floral motif of re-broidered lace, sweeping to the back in unpressed pleats and ending in a cathedral train.

Her fingertip veil of French illusion was caught to a cluster of orange blossoms and lilies of the valley.

Miss Mary Ann Bothemich was maid of honor and Miss Mary Lou Stamps served as bridesmaid.

The attendants were attired alike in ballerina-length gowns of Paris pink silk organza over taffeta. The bodices were fashioned with bateau necklines and bracelet-length sleeves. The bell-shaped skirts were caught at the back with bouffant semi-bustles.

Matching headpieces completed their costumes. Bouquets of matching pink carnations and white roses with pink streamers were carried by both attendants.

The groom chose Eugene Pettit, his cousin, as best man, with Frank Rencker, another cousin, as groomsmen. Tom Rickett

the university site is protected by zoning.

Several other professors live in Granite City, and I'm sure you will see a large number of them moving into this area," Troyer said in stressing that the local community is affected. The Granite City educational development, he added.

Maurice Rich, president of the 300-member Associated Retailers and Civic Association, said his group has voted to urge passage of county zoning.

## Cites City Zoning

Bill Stutz, Foster township, who has spoken against zoning at previous hearings, said Granite City would not be affected by county zoning.

City zoning jurisdiction in the surrounding mile-and-a-half area is sufficient. He said 99% of the farmers and 80% of the geographical areas of Madison county oppose zoning. Butler said agricultural land would be exempt from restrictions under zoning.

Harold R. Fischer, president of the First Granite City National Bank, said his home lot \$2500 in value when commercial property was built nearby before Granite City had zoning.

Fischer reported local Optimists' endorsement of zoning and commented that "zoning is a must for Granite City and other communities in Madison county to develop in the future as they have in the past."

A member of the SIU board of trustees, Fischer said he learned that Mrs. Charlotte Shea of Alton said she favors zoning and is a farmer's daughter and farmer's granddaughter as well as a mother and property owner.

Albert Roman of the Edwardsville area said he opposes zoning and Hugh Mazer of Wood River said SIU should concern itself with education only. James Worthen of Granite City said he favors zoning and criticized varying assessments in townships within the Granite City area.

Butler said zoning is intended to encourage orderly growth but is not a "cure-all" for all problems of the county.

Arnold quoted federal officials as saying that university technical information services can aid areas in obtaining national defense contracts. Mazer said he is in the trucking business, contended that zoning has not worked well in Lake county and other parts of Illinois.

and James Unger Jr., 14, and Wayne Unger, 16, of 3004 Myrtle avenue.

A taxi cab driven by Cecil E. Huddleston, 45, of 1628 Courtney boulevard, was involved in an accident with a Granite City Steel Co. train about 6:50 p.m. Sunday at 20th and Ninth streets. The train was operated by Ray Ohmes, 39, of Glen Carbon, police said.

Police said a passenger, Evelyn Foster, 29, of 1004 Reynolds street, Madison, a passenger in the taxi, complained of pains in the back and shoulders.

## Hurt In 3-Auto Crash

John R. Kravac, 29, of 2304 East 21st street, was slightly injured about 4:40 a.m. Sunday when he swerved to avoid an auto that entered his lane. His auto struck the rear of another that was parked in the 1500 block of Madison avenue, causing it to strike the auto parked ahead of it, which in turn jumped the sidewalk.

Kravac was northbound on Madison avenue. The parked autos were owned by James Taylor, 2817 Roosevelt street, and John W. Douglas, 1304 Mission avenue. The other driver was not identified.

Peggy S. Harlow, 20, of 1515 Pontoon road, was injured slightly at 7 p.m. Saturday in an accident at Pontoon road and Washburn avenue. Police said she was driving east on Pontoon road. The other driver involved was making a left turn from Washburn onto Pontoon road. Police said he was Webster M. Harris, 49, of 1732 Sycamore avenue.

## Three Injured

Three occupants of an auto were injured about 8 p.m. Saturday on an accident at Madison avenue and 27th street. The driver, Martha Turville Miner, 50, of Owensboro, Ky., sustained minor injuries. She was charged with failure to yield right-of-way.

Her passengers, Mr. and Mrs. Albert Turville, of Nashville, Tenn., were treated at St. Elizabeth Hospital, and transferred to Barnes Hospital, St. Louis. The third injured, a 16-year-old girl, sustained lacerations and complained of neck pains. His wife, Maybell, 27, suffered multiple lacerations to the face and an eye injury.

Police said the driver was northbound on Madison avenue and attempted to turn left onto 27th street. She turned into the path of a southbound auto driven by William W. Haven, 20, of 521 East Chain of Rocks road.

inconvenient by the new highway. "But that would be the situation wherever we put it," he said.

Shanahan said all complaints voiced at the hearing will be recorded and forwarded to proper officials. It was noted that the present proposed route of FA 151 is not final, but that few if any changes are expected to be made.

C. E. Townsend, speaking for the Highway and Transportation committee of the Tri-Cities Chamber of Commerce, expressed strong support for the new highway. "We've been in favor of this highway for 20 years or more," Townsend said, "and we'd like to say again we are heartily in favor of it."

Plans call for the highway to be constructed in stages, the first section reaching from U. S. By-Pass 66-40 almost to Pontoon road. Second section will be from there to Niedringhaus and the third section from Niedringhaus avenue to the end of the construction at Broadway and Main street, Venice.

An Illinois Terminal Railroad Association representative, A. S. Taylor, noted that the highway will pass through property owned by the railroad and planned for industrial sites. Another railroad spokesman asked whether future track crossings will be allowed, to serve expected industrial expansion between the new highway and the river.

Alies said he knows of no existing provisions which would preclude such crossings should they become desirable. The highway will have overpass at existing railroad crossings, it was pointed out.

## Driver Charged

Robert Ryan, 26, of 2739 Iowa street, pleaded guilty to charges of leaving the scene of an accident and reckless driving Saturday. Police Magistrate Gasparovic set a hearing for Saturday and Ryan was released on \$500 property bond. He was arrested after allegedly striking a parked auto owned by Sharon Sparks, 2729 Iowa street, which was parked outside her home. The accident occurred about 2:15 a.m. Saturday.

## Three Charges Filed

Arrested at the rear of a yard in the 400 block of Lincoln avenue at 11:50 p.m. Friday, Charles R. Queen, 28, St. Louis, was charged by Venice police with drunkenness, peace disturbance and refusal to obey police. He was released on cash bond.

## Vandals Tamper With Auto

James E. Shone, 3602 Kirkpatrick Homes, told police Friday morning that during the night vandals looted the valve stems of his auto which was parked on a lot near his home.

#### Wheat Sign-Up Starts Soon In Illinois

Illinois wheat farmers will soon be able to sign agreements for participating in the 1963 wheat program. Edw. J. Meagher, chairman of the Illinois ASC State Committee, announced in Springfield today. The closing date for winter wheat producers will be Dec. 14.

As soon as the necessary forms and procedures are available sign-up will be started. A general outline of the way the program works is now available in county ASCS offices. This information also will be sent to all wheat producers within a few days, along with the farm payment rate and the wheat base acreage for each farm.

The 1963 special voluntary program was authorized by the Food and Agriculture Act of 1962 which was recently signed into law by President Kennedy.

The new legislation raises the support price on the 1963 crop wheat from \$1.82, announced last July, to \$2 per bushel for farmers who participate in the program.

Farmers will be able to divert from 20% to 50% of their wheat acreage with special diversion provisions for small farms. The minimum diversion is 20% of the wheat allotment for farms with allotments of more than 15 acres.

Farms with allotments of less than 15 acres must divert 20% of the allotment, or the three-year average acreage (1959, 1960, and 1961) whichever is larger.

Of the \$2 per bushel 1963 average support price to farmers participating in the 1963 program, \$1.82 per bushel will be available through loans and purchase agreements and 18¢ per bushel will be in the form of a payment-in-kind based on normal production of the harvested acreage. (The normal production is the 1959-1960 average yield established for program purposes.)

In addition to the 18-cent incentive payment, participating farmers will receive a diversion payment for land diverted to conserving uses. This rate will be computed by multiplying 50% of the county loan rate by the normal yield established for the farm.

For farmers who do not participate in the voluntary reduction program the legislation makes no change in the mandatory provisions of the 1963 wheat program, as voted on by farmers in the August referendum.

Those who remain within their acreage allotments will be eligible for price support at a National average minimum price of \$1.82 per bushel.

All farmers with 15 acres or less of wheat in 1963 will be exempt from marketing quotas. Meagher emphasized that the program gives wheat producers an opportunity to continue the needed adjustments in wheat production.

Mabel V. Garrison, 34, of 714 State street, Madison, posted her driver's license as bail Thursday after she was charged with reckless driving. She told police she grabbed for her eight-month-old son, Bryan, and her car swerved toward an auto driven by Owen Shane, 49, of 2221 Monroe street. He, in turn, swerved to the right to avoid her and struck a tree and a parked auto owned by Jesse Phillips which was parked outside the Phillips home, 2033 Madison avenue.

The accident happened about 6:55 p.m. The auto involved was southbound on Madison avenue.

#### Delinquent Tax Sale To Be Held Dec. 17

County Treasurer Daniel W. McGee announced last week that the delinquent annual tax sale will be held Dec. 17. All real estate and personal property on which taxes are delinquent for over one year are subject to the sale.

A list of all properties involved in the sale will be published as required by law during November. If taxes are paid or more years.

on the listed properties on or before the sale date, they will not be subject to the sale.

In most years the sale has been held during January, although occasionally, such as last year, it has been in December.

The county's fiscal year now ends with the calendar year. The sale will cover two classifications of property—current items on which taxes are due for one year or more and the "scavenger" items on which taxes have not been paid for 10 or more years.

# Maximum Sentence For Obscene Calls

A maximum sentence was handed down for Joseph M. Miller, 48, of East St. Louis, Thursday afternoon. He was sentenced to six months in the county jail and fined \$300.

Housewives and telephone switchboard operators were plagued with his obscene calls. One place of business in Granite City received 44 such calls in a single day.

Arresting officers confiscated as evidence a large paper sack stuffed with telephone numbers. Granite City detectives worked for weeks tracing the man. He was arrested Wednesday night.

Games were played and prizes were awarded. A luncheon was served by the hostesses, Pauline Polito and Louise Schieff. A new member present was Mrs. Geanne Raymond.

There were nine members present. The next meeting will be held Nov. 7.

### NAMEOKI WOMAN'S CLUB PLANS SMORGASBORD

The Nameoki Woman's club held a monthly meeting at the Rose Bowl Wednesday, with Mrs. Wilford Cooley, president, conducting the business meeting. Mrs. Leo Schermer opened the meeting by reading the pledge of allegiance and having all members give the club prayer in unison.

Mrs. Cooley asked for a report from the ways and means committee co-chairmen, Mrs. Merle Jennings and Mrs. Dawson Wade. They informed the members there will be a smorgasbord in the near future, and all the husbands will be invited.

They reported further that individual card parties will be held in the members' homes with the proceeds going to the scholarship fund.

Mrs. Schermer, chairman of the American citizens' committee, reported that all members will soon have 30-star flags and thus make the club 100%.

Awards will be given by the State Federation, which is promoting this project. Mrs. Cooley reported on the Madison county meeting held this month in Collinsville and announced that there will be a district sewing contest soon. She announced there will be a Southwestern Illinois Regional Federation Conference in Herrin, Ill., on Oct. 25.

The program for the meeting was on "Gardens." Mrs. Cooley had recordings from a radio program sponsored by DuPont Five Garden Clubs of Illinois, entitled "How To Be a Blue Ribbon Club."

Refreshments were served to the following members: Mesdames June Stieb, Dawson Wade, Charles Wade, Charles Littlejohn, Royal Barney, Fred Werner, Meri Jennings, Frank Seiter, Herman Steinberg, Homer Blumstock, Herbert Bischoff, Robert Brandsmark, Adolph Weiss, Roy Wilmzig, Harold Stewart, Emmett Beeler, William Ogden and Harold Caldwell.

The hostess used fall colors in her decorating. A white tablecloth was bordered with leaves in brown, gold and rust colors, and a grouping of tall green candles was used as a centerpiece. Miniature flower baskets filled with candy corn were placed at each setting as favors.

She served a dessert luncheon after the games to the prize winners and Mesdames Betty Rea, Donna Hogan, Doris Thompson and Arlene Laub.
